**BUILDING
EQUALITY
OVER DIVERSITY**

3/6/2021

<https://youtu.be/SViZ333gF-s>

Co-funded by the
Erasmus+ Programme
of the European Union

“Building Equality Over Diversity” is a European project co-funded by the EU program “Erasmus +” that involves six partners in four European countries: Italy, Romania, Spain and Italy.

The project aims at promoting schools internationalization in terms of openness to others and to other cultures, as well as propensity to the collective and individual mobility of teachers and students.

Students grew as European citizens discussing themes of integration, social inclusion, participation, work sharing and mobility. The project improved learners’ linguistic and technical skills.

The richness of these formative experiences that put students in direct contact with other worldviews, with different social contexts and with other languages fostered the social cohesion of the whole community through the enhancement of the knowledge, skills and competences of their human capital.
